# OVERVIEW OF SUPERHERO U CAMPAIGNS

Number of Campaigns Analyzed: 11

Each Campaign was analyzed on the basis of the following parameters:

- Campaign ID and Name
- Target audience for the ad. Can be either “students “ or “educators”
- Age
- Geography the ad was served in
- Reach-no. of people who saw the ad atleast once
- Impressions- no. of times the ad was on a screen
- Frequency- average number of times a person saw an ad

- Clicks
- Total number of unique clicks
- Click Through Rate –number of people who saw the add and clicked the link
- Amount spent in INR
- Cost spent per Click (CPC)
- Cost per Result(CPR)-total amount spent/total result or unique link clicks

## Clicks, Reach & Impressions vs Amount Spent

Clicks

Reach

Impressions

Amount Spent in INR

## CTR VS CPC

# CONCLUSION

- After analyzing the dataset given to us, we can comprehend that there are several factors which we can be considered to decide whether to continue a particular campaign or not.
- After a brief discussion we have decided that the most important factors to be considered for discontinuing a campaign are Reach, Clicks, Impressions, Amount spent in INR, and Unique Clicks.
- After visualizing and comparing the results, we came to a conclusion that Campaign 3 is having the lowest number of reaches and impressions, while also having a higher amount spent. Therefore, Campaign 3 can be considered for removal due to their low result and cost efficiency.
